Custom Product Program Details

- The minimum order quantities (MOQ) defined in the above table reflect utilization of Natur-Bag® stock sizes, film, and ink color, with same print specifications (1-color, 1-side, registered print).
- Print plate costs \$200
- Lead time: 10-12 weeks
- Subject to minimum order quantities. MOQ is dependent on ink color, film color, and liner size
- Different sizes, film colors, and ink colors are available but may result in an increased MOQ

Sublicensing through the Biodegradable Products Institute (BPI) and TÜV Austria

All Natur-Bag® products are certified compostable by the BPI and TÜV Austria. We can assist you in sublicensing your custom Natur-Bag® bags and liners.

How Can Natur-Bag® Help?

Compostable products, like Natur-Bag® liners, help enable participation in zero-waste and organic collection programs. They also help reduce contamination and save money. Natur-Bag® liners are fully compostable allowing them to integrate seamlessly into zero-waste and organic diversion programs. This allows for less cleaning, greatly reducing the need for water and detergent, saving both time and money. They help prevent odors while keeping collection bins clean and dry.

With vast experience in various markets throughout North America, Natur-Bag® can assist in establishing zero-waste or organic collection programs. Whether it is using our Natur-Bag® Sort and Collection signs, an extensive program review, or product samples, we can help. Visit our website to learn more: www.naturbag.com.
